

The Exotic

The Exotic caters for the cattle producer that expects his cattle to be handled by a crush that is second to none. The Exotic has been manufactured with the unique and patented Rubber Lined, Spring-loaded Headbail which forms a yolk around the animals neck, minimizing head movement. The crush is also fitted with a lever operated, parallel squeeze, that can easily move a large animal to the center of the crush with minimal effort. The animal is then held ready for any husbandry operations and the operator is safely protected by a ratchet and pawl system.

The features of the Exotic Crush Include:

- Parallel squeeze
- Rubber Lined, Spring-loaded headbail
